

PERSONAL PROFILE

Dr. Brandon Comella is dually trained as a mechanical engineer and a doctor of dental surgery. He began his career as a dental lab technician for the U.S. Air Force, and later owned a dental laboratory before going on to obtain multiple degrees in dentistry and engineering. Dr. Comella's unique blend of clinical experience and engineering allow him to logically frame and analyze every step of an orthodontic treatment process and implications to the entire orthodontic practice.

Dr. Comella has been using multiple lingual bracket systems, most recently Harmony™ by American Orthodontics. He has treated over 700 patients using lingual braces, and has used lingual braces for every treatment scenario possible.

Dr. Comella created the first formalized clinical hands on experience called the Harmony Expert Program for the Orthodontist, Treatment Coordinator and Clinical Team. Learn more at www.harmonyexpert.com.

Dr. Comella obtained his D.D.S. degree from the State University of New York at Buffalo in 2001, and began his career in orthodontics immediately thereafter. He holds a Bachelor of Science and Masters of Science in Mechanical Engineering from the Rochester Institute of Technology. He maintains a private practice in Rochester, NY.
